

Preparing for Your First Appointment

Thank you for trusting us. We're excited to help you begin your vein health journey. Please use the following information to prepare for your initial consultation.

1

WHAT TO BRING

- Photo ID
- Insurance information and card
- Medical records or information that you think may be helpful

2

YOUR CONSULTATION

A vein consultation provides a thorough evaluation by a vein specialist, including an assessment of your vein health, a review of symptoms and medical history, a physical examination of your legs, and a discussion of potential treatments. Diagnostic tests may be recommended to assess and visualize blood flow in your veins.

3

TIPS FOR A CLEAR ULTRASOUND

- Drink 2 to 3 glasses (8-ounce) of water in the hour before your appointment
- Eat a light meal
- Avoid using lotion or moisturizer on your legs, as it can interfere with the imaging

4

DEVELOPING A TREATMENT PLAN

After the evaluation, the doctor will review the results and recommend a range of non-surgical, minimally invasive treatment options. A personalized treatment plan will be created, and your treatment visits will be scheduled. You'll have the opportunity to ask questions and address any concerns during this process.

5

INSURANCE COVERAGE

At USA Vein Clinics, we are committed to providing affordable vein treatment options. We accept most insurance plans, including Medicare and Medicaid, and continuously expand our network of providers to improve coverage. For treatments not covered by insurance, we also offer a range of financing options.

6
